

ABELDent Inc. is pleased to provide you with ABELDent Freemium!

ABELDent Freemium is a free version of ABELDent's highly-rated premium dental software. It looks and feels identical to our premium software and is limited only by the performance constraints of Microsoft SQL Express, the free version of Microsoft SQL that ABELDent Cloud & Local Plus use.

Installation is the first of three steps of getting you started in using ABELDent. After completing the installation, please continue with **Steps 2 and 3** to get the most out of **ABELDent Freemium**.

This Installation Guide will help you through the installation process. In addition to Installing ABELDent Freemium, the installer will install:

- Microsoft SQL Server 2012 Native Client
- Microsoft SQL Server 2022 Express LocalDB

Installation

3.

- 1. Open ABELDentFreemiumSetup.exe
- 2. If Microsoft Defender SmartScreen prevents the installer from running, Click **More Info**:

Windows protected your PC	×
Microsoft Defender SmartScreen prevented an unrecognized app from starting. Running this app might put your PC at risk. More info	
Don't run	
Click Run anyway:	
Windows protected your PC	×

Don't run	

4. The installer will inform you of any extra items to be installed on your computer:

ABELDent - InstallShield Wizard				
	ABELDent requires the following items to be installed on your computer. Click Install to begin installing these requirements.			
Status	Requirement			
Pending	Microsoft SQL Server 2012 Native Client 11.4.7001.0 (x64)			
Pending	Microsoft SQL Server 2022 Express LocalDB			
	Install Cancel			

- 5. **Click Install.** The installer will install the extra items.
- 6. After completing the extra items, configure your ABELDent Freemium Server details:

🛃 ABELDent Freem	ium - Install Server	×

18. ABELDent Freemium is ready for use

Using ABELDent

You can open ABELDent Freemium multiple ways:

Start Menu

Users can access ABELDent and additional utilities via the Windows Start Menu.

Windows 10

- 1. Click Start
- 2. Expand ABELDent Folder
- 3. Click **ABELDent**:

4. The login screen appears:

Ø	×
User Name	
Password	

Alternatively, you can simply type "ABELDent" after clicking Start, and ABELDent will appear for you to select and open:

Logging in

To begin using ABELDent Freemium, Login with **Username: Terry** and **Password: Terry**

After completing the installation process, continue the steps to get the most out of ABELDent.

Step 2: Start using ABELDent Step 3: Learn ABELDent using our Learning Management System (LMS)

Uninstalling ABELDent

Uninstalling ABELDent from your system is simple, either via the:

- Desktop ABELDent Folder
 - a. Open the ABELDent Folder placed on your Desktop
 - b. Double-click Uninstall ABELDent
 - c. Proceed through the Uninstaller for ABELDent
- Windows Add or Remove Programs
 - d. Open the Add or Remove Programs utility (Click Windows button > type: "Add or Remove" > select Add or Remove Programs)
 - e. Search for ABELDent in the Search Apps field
 - f. Click the 3 dots next to ABELDent
 - g. Select Uninstall

The ABELDent Uninstaller does not remove the additional programs installed during initial ABELDent. To uninstall those programs as well, simply search for "SQL" in Windows Add or Remove programs and uninstall both:

Microsoft SQL Server 2012 Native Client

Microsoft SQL Server 2022 Express LocalDB
